

SEED TO SEAL

it's not a slogan, it's our calling

Young Living knows that producing the highest-quality essential oils starts long before the cap is put on the bottle. That's why our proprietary Seed to Seal® process is the foundation of everything we do. With five careful steps, we make sure only the best products bear the Young Living mark of quality.

SEED: To make the best, we start with the best seeds and botanicals that have been evaluated for their essential oil-producing potential.

CULTIVATE: Our experts travel the world visiting the Young Living farms and our carefully monitored partner growers to make sure cultivation processes meet or exceed the highest standards.

DISTILL: Our gentle, proprietary techniques extract essential oils while preserving their precious constituents.

TEST: To guarantee consistent, verifiable quality, our oils are tested in third-party facilities, as well as in Young Living's own internal labs.

SEAL: Using state-of-the-art equipment, our essential oils are carefully bottled, labeled, and then shipped to members worldwide.
